Hi Kristen!

I will start with the second question first. We will have Margaret Guerriero, the Land and Chemicals Division Director, Gary Victorine, the RCRA Branch Chief, Sherry Kamke, the UST Section Chief, Bob Egan the LUST Corrective Action Manager, and Erik Olson, our attorney.

We discussed the topic of jurisdiction on LUST sites in Indian country with Darsi Foss when she was in Chicago for a meeting. We continue to discuss options for articulating EPA's position about jurisdiction within Indian Country but have made no final decision yet.

Do you have an agenda for the meeting on Wednesday?

Sherry

Good Morning Sherry,

Do you have any information on the status of the letter to the State regarding LUST program implementation on Indian Lands in Wisconsin?

Also, do you know who we can expect from EPA to participate in next Wednesday's meeting?

Thanks,

Kristen Hanson

Subject: EPA Letter to WI

Confidential Enforcement Sensitive Communication

Dear Erik

Please let me know the status of the letter we discussed on June 11th and which you indicated would be forthcoming on June 16th. I recall that EPA was going to follow up the Tribe's letter to WI with a comparable letter regarding the fact that WI did not have an EPA approved LUST program, that the EPA MOU with WI did not authorize WI to implement its state LUST program within Indian Country and that under RCRA, Indian Country in WI, was currently subject to federal jurisdiction by EPA.

It was my expectation that EPA would have addressed this straightforward matter long before the scheduled Tribal/EPA formal consultation on this and related subjects, to take next week.

Please get back to me at your earliest convenience.

Richard
